DETAILED ACTION

Election/Restrictions

- Restriction to one of the following inventions is required under 35 U.S.C. 121: 1.
 - I. Claims 1-19 and 26-79, drawn to a magnetic recording medium, classified in class 428, subclass 694TS.
 - II. Claims 20-25, drawn to a method for measuring thermal stability of a recording medium, classified in class 324, subclass 212.

The inventions are distinct, each from the other because of the following reasons:

The inventions are distinct each from the other because of the following reasons: 2.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as different type of components a magnetic medium may have. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rocio Colon whose telephone number is (703) 305-3947. The examiner can normally be reached on Mon-Thu 8:00a.m. -6:30p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Hudspeth can be reached on (703) 308-4825. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 09/540,646
